

NSOLO PATRICK IKEMEFUNA

SOFTWARE DEVELOPER

Address: 15, Ilesanmi Street, Greenland Estate, Maryland, Lagos-Nigeria.

Email: Patricknsolo@gmail.com | **Phone:** (+234) 0815082228, (+234) 09017448384.

PROFILE SUMMARY

An enthusiastic and dedicated software developer, known for unwavering commitment to delivering high-quality products on time, backed by a can-do attitude and a keen eye for detail. I possess three years of hands-on experience in the end-to-end process of defining requirements, designing, implementing, testing, and successfully delivering complex software and web applications. This experience spans across various programming languages and technologies.

PROFESSIONAL EXPERIENCE

Aurora Digital Solutions (2018 – Present)

Freelance Software Developer/ Graphic Designer

- Developing responsive and user-friendly web apps and software solutions for organizations.
- Project management and provision of timely technical support to customers.
- Collaboration with the product design team to create effective wire-frames.
- Collaboration with developer teams on several open-source projects.
- Graphic Design and Video Ad creation and editing for client organizations.

PROJECTS

WellnestShowroom Website (<https://wellnestshowroom.com/>)

- Developing the online store using WordPress.
- I use plugins such as Elementor, Brave, and Updraft.
- Employed CSS to achieve the client's desired look, creating brand awareness.
- Employed PHP, to create a functionality that allows users to add a delivery fee to the total cost of their purchase.
- Integration of payment API to facilitate online payments on the website.
- Social Media content creation to drive company sales.
- Search engine optimization
- Integration of client WhatsApp within the page, which increased conversion rate and customer stickiness exponentially.

Paradigm Finance Website (<https://pflnigeria.com>)

- Product design for the company website.
- Design of the Company's web app using semantic HTML, and CSS.
- Provision of constant client support.
- cPanel Management.

- Use JavaScript to create a loan calculator that helps users calculate loan amounts, interest rates, and repayment due. This helped immensely in conversion.

Lofty Healthcare Website (<https://loftyhealthcareltd.com>)

- I handled the company branding, logo design, and product design for the website.
- Building the user interface using HTML and CSS.
- Integration of “Agency Portal” a third-party application that provides jobs within the UK that can be accessed on the website.
- Creation of a JavaScript counter that shows the client rating, number of staff, and coverage area of the company.
- Integration of social media links in the web application to help users interact with the company's social media pages.

Midris Autos (<https://midrisautos.com>)

- Developing the online car rental service using WordPress.
- I use plugins such as Elementor, WooCommerce, LuxeDrive Core, Qi Blocks, and Qode Framework.
- Employed CSS to achieve the client’s desired look, creating brand awareness.
- Continual update of clients' products and other content
- Integration of payment API to facilitate online payments on the website.
- Search engine optimization
- Technical support
